Cine-Regio and Animarco Regio

Cine-Regio is a network of regional film funds in Europe. Created in 2005, Cine-Regio is continuously expanding and today represents 38 regional film funds from 13 EU Member States, in addition to Norway and Switzerland.

The members exhibit a range of support schemes and services to the film sector which aim to support film culture, encourage social cohesion and build regional infrastructure.

Regional film support is vital to foster and safeguard the development of the European audiovisual sector and promotes cultural diversity.

Cine-Regio’s main objectives are threefold and interlinked:

Knowledge Sharing, Film Policy and Co-Productions

→ To exchange views, perspectives, good practices and information for the benefit of the European film industry, including integrating new regional film funds

→ To raise awareness, represent and promote regional audiovisual interests across Europe, including European institutions.

→ To strengthen the co-development and co-production of audiovisual products, fusing talents and resources in different regions for a wider market.

Animarco Regio is a platform for Cine-Regio members with a specific interest in supporting and co-producing animation (incl. promoting producers & talent from their region). The sub-group is headed up by Cine-Regio member MFG Filmförderung Baden-Württemberg, Germany.
